Step 1 - Install SideQuest on PC

To install the game .apk file we will use a program called SideQuest.

- Go to there website: https://sidequestvr.com/setup-howto
- Install the Advanced Installer (Marked in red)

Step 2 - Download the .apk file

- Download the games .apk file form the drive or website and save it to a place you will remember on your PC.

Step 3 - Install the .apk via SideQuest

- Open SideQuest.
- Connect The VR headset to your PC via the USB cable. Make sure the VR Headset is turned on. It should say something like 'Oculus Quest 2' and show a green circle in the top left corner of the SideQuest Window.

- Click the '*Install APK file from folder on computer*' icon in the top right corner of the SideQuest Window.

- A File Explorer will open. Navigate to where you saved the .apk file and select it.
- The installation will begin.
- After a few second the installation will be complete

Step 4 - Launch the game in the VR Headset

- Select 'App Library' in the bottom right corner.
- Select 'Unknown Sources' from the dropdown menu.
- Select the game.
